## Preparation

### The Seer:

Feel and contemplate the meaning of the  $15 + 1$  concepts of *The Equation for Bringing all Tones of Existence into a Unified Field*. Feel how each concept added to another, jointly creates a new combined concept. Place the concepts next to where you will be lying for the ceremony. Prepare some music for achieving a meditative state prior to and during the ceremony.

## The Equation for Bringing all Tones of Existence into a Unified Field

1. The healing of all injuries or trauma held in the physical and more etheric bodies.
2. The purifying of all membranes separating the tones of existence and the dissolving of their programs, memories and imprints.
3. The purification of all light-fibers within the bodies of man of programs and distortions or disruptions.

4. The unifying of all purified light-fibers within the bodies of existence into a fluid, unified field.
5. The purification of the assemblage point and the removal of all desires to control; the complete dissolving of the need for its existence.
6. The effortless knowing of the insights that make the membranes between the tones and the light of existence unnecessary.
7. The complete removal of lingering impressions that keep the past in place through magnetic or electrical imprints.
8. The shattering of all rigid divisions such as programs, matrices, grids and artificial creations, through the fully expressing Infinite Song of Existence.
9. The continually upgraded and harmonious unfolding of all unexpressed or repressed songs within existence.
10. The release of all tones, and the removal of all tonal distortion into their unlimited capacity and full expression.
11. The expression of Infinite Life beyond the matrices kept in place by consciousness, awareness and oneness.
12. The shattering of the triad of linear change and the field of life it has kept in place.
13. The healing of addiction by having wholesome relationships with the subpersonalities.
14. The healing of the addiction to drama created by manifesting adversity within relationships.
15. The dissolving of the addiction to being in a relationship, by the interplay of receptivity and proactivity.

*Living from the full expression of the jubilant stillness of the indivisibility of Infinite Life*
